

# 大地系列

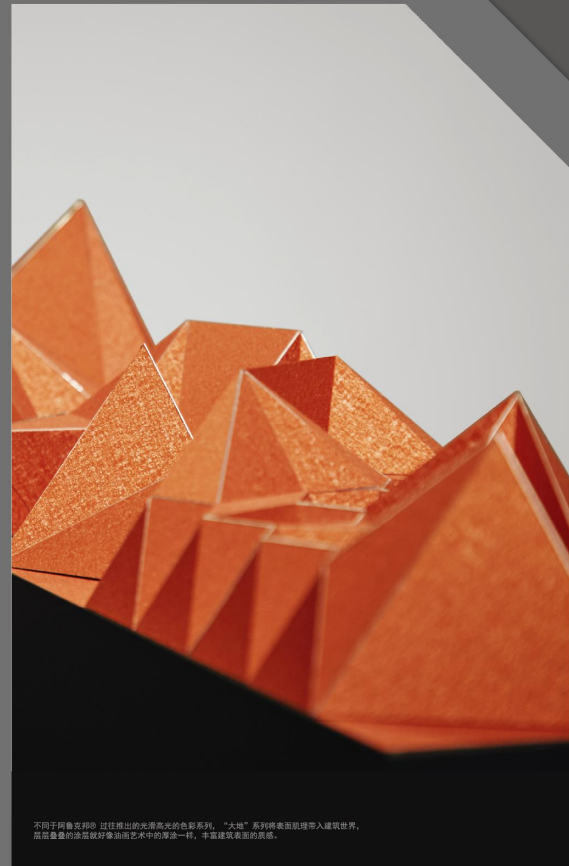

## TERRA

NEXT, ENDLESS AND BEYOND

ALUCOBOND® 阿魯克邦

把大地蘊藏的秘礦搬入城市

建築世界中的厚塗

不同于阿魯克邦以往提出的光滑亮澤的色彩系列，“大地”系列將表面肌理帶入建築世界，  
富即疊疊的塗層就好象油畫藝術中的厚塗一祥，洋溢建築表面的質感。

为了避免视觉误差以及新形成的颜色差异，请务必按照每块面板上箭头指示的方向进行安装，否则可能会导致颜色不均或产生色差。因此，请务必在安装前对每块面板进行一次仔细的目视检查。

To avoid possible reflection difference, it is recommended to install the panels in the same direction as marked on the protective pre-officio.

Color variations may occur between panels originating from different production batches. To ensure color consistency, the total requirement for a project must be placed in one order.

#### 8380 极地冰霜

正如它的名字，该色的灵感来自于寒冷的结霜表面，有冰霜的独特质感和晶莹剔透，在阳光照射下有晶莹剔透的光泽。

#### ARCTIC FROST

Glacier ice is crystal of extreme variability, just like our Arctic Frost decor: it looks like a fine layer of ice, reflecting the daylight and the surrounding colors in a wide variety of changing hues.

#### 8381 板石岩灰

板石是传统建筑中常用的材料，我们将其融入了更多的现代和时尚的元素，源于岩石却不同于岩石。

#### SLATE

Slate has always been a traditional material, now it is adding a dash of elegance on urban ones. The finer and more uniform the texture, the more elegant and more exquisite the material.

#### 8382 熔岩深黑

深青色的黑色火山岩能够更好凸显自然黑色，它看起来更为神秘，视觉上显得时而平滑，时而粗糙，神秘而隐秘。

#### LAVA NERA

Pitch black lava stone provides an earthy contrast to reflective glass, shiny steel or smooth white surfaces. It looks mysterious, sometimes glossy and smooth, sometimes coarse and open-grained.

如需更多产品信息或特殊需求，请联系当地工作人员。 For more information and available specification please refer to the manufacturer or your nearest ALUCOBOND representative.

#### 8385 黄铁金砖

不是发光的东晋就是金子，也有可能是黄铁矿，饰面最大程度的保持了黄铁矿的晶体感和光泽度，仿佛隐藏在砂砾中的亮色。

#### PYRITE

All that glitters is not gold. It could also be pyrite. Since pyrite decays and weathers badly, its golden shimmer may be fascinating but it also fleeting. Pyrite decor is inspired by the crystal's brownish – golden sheen. The special feature: its color varies widely from unobtrusive dark brown to vivid yellow – gold in response to natural light.

#### 8383 古董黄铜

独特的黄铜色让人即想起古老的宝藏和艺术珍品，铜质饰面的建筑让人觉得温暖又古朴，这一饰面很适合和其他饰面进行搭配使用。

#### BRONZE

The unique color of Bronze is reminiscent of antique treasures and art nouveau. Bronze decor imparts older buildings with an elegant warmth. Modern buildings and large format facades acquire a fascinating and lasting lustre.

#### 8384 赤陶砖红

陶土给人一种温暖、恬静的感觉，这一饰面的颜色和质地让它与一般红色区别开来，与铜器水泥和其他冷色面搭配，能够提升建筑的柔和度。

#### TERRACOTTA

When it comes to generating warmth and a Mediterranean aura, terracotta is a superlative material. Fired and traditionally unplazed, the clay's charm lies in different color nuances and the wonderful way it ages naturally. Terracotta decor reiterates the earthy, multi-hued shimmering red tones of terracotta – an attractive contrast to cool high – grade steel or green facades.
